

Ashadeep NMM Medical Camp, Jhadol, Udaipur

In the month of July our medical team left in the morning and drove through the green mountains to reach the place known as Jhadol, Udaipur. The drive was one and half hour long through zig zag roads. It was a rainy day but the sick people were treated, given health education and medicines were distributed to them. The doctor saw cases of tuberculosis, pyoderma, malnutrition along with secondary infection, diarrhea and vomiting, fever, and cough. Nearby one hundred patients were given medical care.

The patients were given health education especially on the importance of good diet and proper follow up. The doctor educated the community and the medical team with more information on the rational use of community drugs. Thanks I-Connect for your support in reaching out to the poor and needy of Jhadol region.
